ABSTRACT

The eighth in the current series, this volume contains responses from 91 libraries to all items in the Colorado Public Libraries Annual Report, summary statistics for seven ranges of population served and the state, and an index by data element. This edition uses, except for a few cases, the same populations figured from the 1990 U.S. Census. Statistics presented include: (1) general information; (2) paid library staff; (3) library operating income; (4) library expenditures; (5) library materials; (6) service per typical week; (7) annual service; (8) staff wages and salaries; (9) automation issues; (10) challenged materials; (11) special report use; (12) weekly schedule; (13) input measures (i.e., full-time equivalent staff, volumes per capita, units per 1,000 served, operating expenditures per capita, and percent of operating expenditures for staff and materials); (14) output measures (i.e., registration as percent of population, services per capita, services per hour, turnover rate, interlibrary loan, and program attendance per 1,000 served); and (15) Colorado public library summary statistics. Definitions and uses for input-output measures are included, and the annual report instructions and questionnaire are appended. (KRN)

INTRODUCTION

This 1991 edition of *Statistics & Input-Output Measures for Colorado Public Libraries* is the eighth in the current series. This volume contains:

- library-by-library responses to all items in the Colorado Public Libraries Annual Report 1991;
- summary statistics for seven ranges of population served and the state; and
- an index by data element.

A perennial problem statistic is the population of legal service area for each library. This year's edition uses, except for a few cases, the same populations figured from the 1990 U.S. Census. Due to a change in their methodology, the Colorado Division of Local Government could not offer any population updates for 1991.

In place of the Colorado Public Library Community Profile Database, detailed profiles for each Colorado municipality using 1990 U.S. Census data are available on request from the Library Research Service.

As usual, 1991 Colorado public library data was submitted to the Federal-State Cooperative System (FSCS) for Public Library Data for eventual publication by the National Center for Education Statistics (NCES).

Available on request are reports comparing a Colorado library's statistics with those of its "peers" nationwide. Peer groups may be defined by the requesting library on the basis of any statistics in the national FSCS database. This is the long-awaited "payoff" for our participation in the Federal-State Cooperative System for Public Library Data. Note, however, that the national statistics available to us will generally be one year older than our latest state figures.

Readers interested in receiving customized reports of Colorado or national figures in presentation-quality tables, charts, or maps need only ask for them. All publications and services of the Library Research Service are available to decision-makers of Colorado public libraries at no charge.

SPECIAL REPORTS

After the overwhelmingly positive responses from last year, the Special Report will be issued again. *It will include:*

- a one-page, ready-reference table of selected statistics for each population-served group;
- a revision of Chapter X of *Guidelines for Public Libraries in Colorado*, which will provide up-to-date guidance for library planners in setting measurable objectives; and
- a set of charts for each population served group illustrating how those libraries rank on each of the *Guidelines* statistics.

We were very impressed with the budget improvements that several public libraries won with the help of these charts and figures. One hundred libraries reported using these reports, and 15 credited them with helping to win over $1.8 million in additional funding. It is particularly satisfying to hear from you about success stories and the various ways you have found to use these charts and figures. Please share any of your stories with us. We like to know what is going on in your libraries.

DEFINITIONS AND USES FOR INPUT-OUTPUT MEASURES

INPUT MEASURES

This section defines input measures and describes their possible uses.

FTE STAFF PER 1,000 SERVED

FTE Staff Per 1,000 Served relates the number of full-time equivalent (FTE) staff to the number of persons in the library's legal service area. It is the number of library staff in FTE's divided by the number of persons in that area.

Full-time equivalent (FTE) staff is the total number of hours per week worked by all staff divided by 40. In this context, full-time means 40 hours per week, regardless of how many hours per week the library is open.

FTE Staff Per 1,000 Served measures the library's level of staffing relative to its service population.

This input measure may be relevant whenever the adequacy of library staffing and staff funding are issues. It is particularly useful when the population or geographical area which the library is established to serve increases dramatically. When that happens, there should be a corresponding increase in staff just to offset the population increase.

FTE STAFF PER 10,000 CIRCULATION

FTE Staff per 10,000 Circulation relates the size of the library's staff to the number of loans they make. It is the number of staff in FTEs divided by total annual circulation in tens of thousands.

This statistic is a measure of workload on the staff relative to circulation. This figure will be of special interest to libraries playing the role of Popular Materials Library.

FTE STAFF PER 100 REFERENCE

FTE Staff per 100 Reference relates the size of the library's staff to the number of reference questions they handle. It is the number of staff in FTEs divided by total annual reference questions (i.e., reference questions per typical week multiplied by 52) in hundreds. This statistic is a measure of workload on the staff relative to reference service. This figure will be of special interest to libraries playing the roles of Reference Library, Research Center, and Community Information Center.

VOLUMES HELD PER CAPITA

Volumes Held Per Capita relates the number of volumes or units in the library's collection to the number of persons it was established to serve. It is the number of print volumes as well as non-print units held by the library divided by its legal service area population.

This figure indicates the average number of volumes held for each person in the library's legal service area population.

This input measure may be relevant whenever the size of the library's collection is an issue. It is particularly useful when the population or geographical area which the library is established to serve changes dramatically. For example, in the latter case, there should be corresponding increases in Materials Expenditures as well as Volumes Held Per Capita just to maintain the existing ratio of holdings to persons served.

SUBSCRIPTIONS PER 1,000 SERVED

Subscriptions per 1,000 Served relates the number of current periodicals subscriptions carried by the library to the size of the population it serves. It is the number of current periodical subscriptions divided by the population served in thousands.

This statistic is a measure of the size of the library's current periodicals collection relative to the population it serves. This figure will be of special interest to libraries playing the role of Formal Education Support Center, Independent Learning Center, Reference Library, and Research Center.

VIDEOS PER 1,000 SERVED

Videos per 1,000 Served relates the number of video materials in the library's collection to the size of the population it serves. It is the number of video cassettes (or disks) divided by the population served in thousands.

This statistic is a measure of the size of the library's video collection relative to the population it serves. If the video collection focuses on entertainment fare, this figure may be of special interest to libraries playing the Popular Materials Center role. If the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

AUDIO-VISUAL UNITS PER 1,000 SERVED

Audio-Visual Units per 1,000 Served relates the number of audio-visual materials in the library's collection to the size of the population it serves. It is the number of A-V units (e.g., films, filmstrips, slide or slide-tape sets) divided by the population served in thousands.

This statistic is a measure of the size of the library's audio-visual collection relative to the population it serves. Assuming that the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

MACHINE-READABLE UNITS PER 1,000 SERVED

Machine-Readable Units per 1,000 Served relates the number of machine-readable materials in the library's collection to the size of the population it serves. It is the number of machine-readable units (e.g., CD-ROM, software packages, data diskettes, magnetic tapes, optical disks) divided by the population served in thousands.

This statistic is a measure of the size of the library's machine-readable collection relative to the population it serves. Assuming that the collection focuses on educational or instructional fare, this figure may be of special interest to libraries playing the Formal Education Support Center role.

STAFF EXPENDITURES PER CAPITA

Staff Expenditures Per Capita relates the amount of library funds spent on staff to the number of persons the library was established to serve. It is the dollar amount paid in salaries, wages, and benefits divided by the library's legal service area population.

This figure indicates the average cost per person of staffing the library.

This input measure may be relevant whenever the adequacy of library staffing or staff performance are issues. The cost-effectiveness of library services may be demonstrated by relating Staff Expenditures Per Capita to output measures which indicate the amount of service received (such as, Circulation and Reference Transactions Per Capita, and Program Attendance Per 1,000 Served).

It is also important to review this measure whenever the population of the library's legal service area changes dramatically. For example, if that population increases dramatically, there should be a corresponding increase in Staff Expenditures Per Capita just to maintain the existing level of support.

MATERIALS EXPENDITURES PER CAPITA

Materials Expenditures Per Capita relates the amount of library funds spent on materials for the collection (including print items, such as books and periodicals, and non-print items, such as audio and video cassettes and films) to the number of persons the library was established to serve. It is the dollar amount spent on such materials divided by the library's legal service area population.

This figure indicates the average cost per person of purchasing (but not processing) newly acquired materials.

Materials Expenditures Per Capita may be relevant whenever the size or usefulness of the collection is an issue. When using this figure to address such issues, it may be useful to relate it to other input measures which indicate the quantity of materials available to users (i.e., Volumes Held Per Capita) and to output measures which indicate the usefulness of those materials (such as Circulation Per Capita, Turnover Rate, ILL Net Lending Rate, and ILLs Per 1,000 Circulation).

It is also important to review Materials Expenditures Per Capita whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases dramatically, there should be a corresponding increase in Materials Expenditures Per Capita just to maintain the existing level of support.

MISCELLANEOUS EXPENDITURES PER CAPITA

Miscellaneous Expenditures Per Capita relates the amount of library funds spent for purposes other than staff and materials costs to the number of persons the library is established to serve. It may include the dollar amount spent on miscellaneous operating expenses (including utilities, telephone and telecommunications, and office supplies) divided by the library's legal service area population.

This figure approximates the average cost per person of running library facilities.

This input measure may be relevant whenever the economy or efficiency of the library's day-to-day operations is an issue. The cost-effectiveness of library operations may be demonstrated by relating Miscellaneous Expenditures Per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users.

It is also important to review this measure whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases dramatically, there should be a corresponding increase in Miscellaneous Expenditures Per Capita just to maintain the existing level of support.

OPERATING EXPENDITURES PER CAPITA

Operating Expenditures Per Capita relates the total amount of library funds spent for all purposes to the number of persons the library is established to serve. It includes the dollar amount spent on staff, materials, and miscellaneous expenses divided by the library's legal service area population.

This figure approximates the average cost per person of running the library.

Operating Expenditures Per Capita may be relevant whenever the economy or efficiency of the library's overall operation is an issue. The cost-effectiveness of library operations may be demonstrated by relating Operating Expenditures Per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users.

It is also important to review this measure whenever the population of the library's legal service area changes dramatically. For example, if the population to be served increases dramatically, there should be a corresponding increase in Operating Expenditures Per Capita just to maintain the existing level of support.

STAFF EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Staff Expenditures as a Percent of Operating Expenditures is the sum of all staff expenditures for salaries, wages, and benefits divided by the sum of all operating expenditures for staff, materials, and other purposes.

This measure indicates the proportion of the library's annual operating expenditures which is spent to compensate staff.

Generally, this figure comprises the single largest proportion of operating expenditures. Accordingly, the higher this figure the better. If this figure is extremely high, however, it may indicate a lack of adequate funding for other aspects of library operations; and, if extremely low, it may indicate a lack of commitment to having professionally trained library staff--indeed, in the most extreme cases, any staff at all.

This measure is especially important for libraries whose chosen roles are particularly labor-intensive (e.g., reference library, research center).

MATERIALS EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Materials Expenditures as a Percent of Operating Expenditures relates the amount spent on the library's collection to what is spent for overall operations. It is the amount spent on library materials divided by the amount spent for all operating expenses (including materials costs).

This measure indicates the proportion of the library's operating expenditures which are for materials. To that extent, it may indicate the strength of the library's commitment to its collection. Notably, however, an extremely high figure on this measure is more likely an indicator of the library's lack of commitment to paying staff, another--in fact, for most libraries, the major--cost center. Interpretation of this measure must also take into consideration what library expenses fall in the "other operating expenditures" category. If a library does a large amount of database searching, for instance, it may have hefty bills to online utilities and for telecommunications. It is best to consider the "other" costs carried by libraries in a prospective comparison group, and to include only those which do not have exceptional "other" expenses.

OUTPUT MEASURES

The output measures defined here include seven of those covered by PLA's Output Measures for Public Libraries (second edition). Each measure includes: a definition, possible uses, and the public library roles with which they are most closely associated. (See PLA's Planning and Role Setting for Public Libraries for detailed descriptions of these roles and a process for selecting and using them to plan for a public library.) The table on the two following pages summarizes relationships between input-output measures and public library roles.

REGISTRATION AS A PERCENT OF POPULATION

Registration as a Percent of Population relates the number of persons registered as borrowers to the number of persons the library is established to serve. It is the number of individual registrations divided by the library's legal service area population.

This measure indicates the percentage of the library's potential users who have at least demonstrated an intent to borrow materials from the collection.

NOTE: Although all registration figures reported by Colorado public libraries are included in this document, figures for libraries which have not updated their registration files in the past three years should be regarded as being of questionable validity.

This output measure may be relevant whenever public awareness of the library is called into question. Assuming a library's registration file is up-to-date, this figure indicates the percentage of potential users who--at the very least--know the library exists and have implied an intent to use it. High Registration Per Capita may also be useful in justifying increases in input measures (such as Staff, Materials, and/or Miscellaneous Expenditures Per Capita).

A library which plays the Popular Materials Center role will strive for a high score on this output measure.

PUBLIC LIBRARY ROLES AND INPUT-OUTPUT MEASURES

Public Library Role	Measures
Community Activities Center	Library visits per capita
	Program attendance per 1,000 served
Community Information Center	Library visits per capita
	Reference per capita
	Reference per hour
	Program attendance per 1,000 served
	FTE staff per 100 reference
Formal Education Support Center	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	Turnover rate
	ILL net lending rate
	ILLs per 1,000 circulation
	FTE staff per 100 reference
Independent Learning Center	In-library use per capita
	In-library use per hour
	Turnover rate
	ILL net lending rate
	ILLs per 1,000 circulation
Popular Materials Library	Circulation per capita
	Circulation per hour
	Turnover rate
	FTE staff per 10,000 circulation
Preschoolers Door to Learning	Library visits per capita
	Circulation per capita
	Turnover rate
	Program attendance per 1,000 served
Reference Library	Library visits per capita
	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	FTE staff per 100 reference
Research Center	In-library use per capita
	In-library use per hour
	Reference per capita
	Reference per hour
	ILL net lending rate
	ILLs per 1,000 circulation
	FTE staff per 100 reference

LIBRARY VISITS PER CAPITA

Library Visits Per Capita relates the number of visits made to the library to the number of persons the library is established to serve. It is attendance at the library during a typical week multiplied by 52 (the number of weeks in a year) divided by the library's legal service area population.

This measure may be estimated by counting the number of persons (excluding library staff, of course) who enter--or, if preferred, leave--the library during a typical week. A typical week is one during which the library is open its regular hours (no holidays) and which is neither extraordinarily busy nor slow.

Library Visits Per Capita indicates the average number of library visits per person served.

It is a better measure of public awareness of the library than Registration Per Capita. While registration statistics on which the latter is based may be out-of-date and, therefore, questionably valid, attendance statistics on which the former is based reflect actual visits to the library. Taken with In-Library Use, Reference, and Circulation Per Capita, and Program Attendance Per 1,000 Served, Library Visits Per Capita can be used to develop an annual profile of library use.

A library will strive for a high score on this measure if its roles include Community Activities or Information Center, Preschoolers' Door to Learning, or Reference Library.

CIRCULATION PER CAPITA

Circulation Per Capita relates the number of loans of library materials to the number of persons the library is established to serve. It is the number of loans divided by the library's legal service area population.

This measure indicates the average number of loans made to each resident of the library's legal service area annually.

This output measure may be relevant whenever the size of the materials budget, the size of the collection, or its level of use is an issue. It may be useful to examine the relationship of this measure to selected input and output measures. For example, lower Circulation Per Capita is a likely result of lower Materials Expenditures and Volumes Held Per Capita. It is also likely to lead to more ILLs Per 1,000 Circulation.

A library which plays either the Popular Materials Center or Preschoolers' Door to Learning role will strive for a high score on this output measure.

REFERENCE PER CAPITA

Reference Per Capita relates the number of information contacts in which a staff member involves information sources to the number of persons the library is established to serve. It is the number of reference transactions per typical week multiplied by 52 divided by the library's legal service area population.

This measure indicates the average number of times a resident of the library's legal service area received staff assistance in using information sources available at or accessible through the library.

Reference Per Capita may be relevant whenever the impact of reference service is an issue. Comparing this figure to Circulation and In-Library Use Per Capita may be useful in assessing the reference desk as an access point for information available in the local collection. Comparing it to ILLs Per 1,000 Circulation and ILL Net Lending Rate may be useful in assessing access via the reference desk to information that may not be available locally.

A library will strive for a high score on this output measure if its roles include Community Information Center, Reference Library, or Research Center.

34

IN-LIBRARY USE PER CAPITA

In-Library Use Per Capita relates the number of materials used in the library (but not checked out) to the number of persons the library is established to serve. It is in-library use per typical week multiplied by 52 (the number of weeks in a year) divided by the library's legal service area population.

In-library use per typical week may be determined by counting the number of items to be reshelved or refiled during a typical week (that is, one during which the library is open its regular hours--no holidays--and which is neither extraordinarily busy nor slow) or a week's worth of typical days (for example, Monday the first week, Tuesday the second week, and so on).

This measure indicates the average number of items used in the library (but not checked out) per resident of the library's legal service area.

This output measure may be relevant whenever evidence of library use is required. To the extent that people turn to the library as a source of useful information (rather than a repository of recreational reading), In-Library Use Per Capita is at least as important to consider as Circulation Per Capita.

A library will strive for a high score on this output measure if its roles include: Formal Education Support Center, Independent Learning Center, Reference Library, or Research Center.

35

CIRCULATION PER HOUR

Circulation per Hour relates the number of loans of library materials to the number of hours the library is open to the public. It is total annual circulation divided by 52 (weeks per year) divided by hours open per week.

This statistic is a measure of library traffic relative to circulation. This figure will be of special interest to libraries playing the role of Popular Materials Library.

REFERENCE QUESTIONS PER HOUR

Reference Questions per Hour relates the number of reference questions handled by the library to the number of hours it is open to the public. It is the total annual number of reference questions divided by 52 divided by hours open per week.

This statistic is a measure of library traffic relative to reference. This figure will be of special interest to libraries playing the roles of Community Information Center, Independent Learning Center, Reference Library, and Research Center.

TURNOVER RATE

Turnover Rate relates the number of loans of library materials to the size of the collection. It is the number of loans divided by the number of volumes held in the collection at the end of the year.

Turnover rate indicates how often each item in the collection was loaned, assuming that circulation was evenly distributed among the library's holdings.

This measure may be relevant whenever use of the collection is an issue. In that case, it may be useful to compare this figure to selected inputs (i.e., volumes held per capita) and outputs (such as circulation per capita and ILLs per 1,000 circulation).

A library will strive for a high score on this output measure if its roles include Formal Educational Support Center, Independent Learning Center or Popular Materials Center.

ILL NET LENDING RATE

ILL Net Lending Rate relates the number of materials provided to other libraries through interlibrary loan to the number of materials borrowed from other libraries through interlibrary loan. It is the number of items loaned divided by the number of items borrowed.

This measure indicates items loaned as a percentage of items borrowed.

This output measure may be relevant whenever the nature of the library's participation in interlibrary loan activities is an issue. It indicates whether the library does more lending (scoring over 1.0) or more borrowing (scoring less than 1.0). "Net Borrowers" may use this figure as evidence of what they gain from participating in such activities, while "net lenders" may use it to argue for the maintenance of strong collections.

A library will strive for a high ILL Net Lending Rate if its roles include Formal Education Support, Independent Learning, or Research Center.

ILL'S PER 1,000 CIRCULATION

ILLs Per 1,000 Circulation relates the number of materials borrowed from other libraries to the number of materials from the local collection made available to borrowers. It is the number of ILL requests divided by total circulation multiplied by 1,000.

This measure indicates the number of interlibrary loans for every 1,000 items circulated from the local collection.

On the one hand, higher ILLs Per 1,000 Circulation might indicate better performance by the library as an access point for information not contained in the local collection. On the other, a lower figure might indicate that the local collection was doing a better job of meeting user needs. Which interpretation to make of this statistic would depend on which issue was at hand as well as the actual amount of ILL and circulation activity per capita. (Higher levels of ILL and circulation activity would favor the former interpretation, while lower levels of such activity would favor the latter interpretation.)

A library will strive for a high score on this output measure if its roles include Formal Education Support Center, Independent Learning Center, or Research Center.

PROGRAM ATTENDANCE PER 1,000 SERVED

Program Attendance Per 1,000 Served relates attendance of scheduled presentations which are sponsored by the library and deal with information services (on or off library premises) to the population the library is established to serve. It is program attendance divided by the library's legal service area population in thousands.

Program Attendance Per 1,000 Served indicates the number of residents per 1,000 in the library's legal service area who attended a library program during the year.

This output measure may be relevant whenever the library needs to demonstrate its services to groups (in contrast to traditional services to individuals, such as circulation and reference).

A library will strive for a high score on this output measure if its roles include Community Activities Center or Independent Learning Center.

STATISTICS AND INPUT-OUTPUT MEASURES

COLORADO PUBLIC LIBRARIES

ANNUAL REPORT INSTRUCTIONS

AND REPORT FORM

FOR 1991

INSTRUCTIONS

COLORADO PUBLIC LIBRARIES ANNUAL REPORT 1991

PART I - GENERAL INFORMATION

1. SPECIFYING THE LEGAL SERVICE AREA. The library's legal service area is the geographical area (i.e., town, city, county, or school district) **for which** it has been established to offer sole or primary services and **from which** (or on behalf of which) the library derives its sole or primary income PLUS any areas served under contract.

   The legal service area of a public library **DOES NOT** include the legal service area of another public library with which it has a reciprocal borrowing agreement.

   An area is served under contract if the reporting library or its jurisdiction has a written agreement with another library or jurisdiction to provide library services to all or a specified part of the population residing in the other jurisdiction. For instance, a city public library may have a written agreement with its county to provide library service to a percentage of the population living in unincorporated areas of the county.

   EXAMPLES: Population of Coloradoville.
   Population residing in Coloco school district.
   Population of Coloradoville plus 10% of population in unincorporated areas of Coloco county.

3. INDIVIDUAL AND FAMILY/HOUSEHOLD REGISTRATION. Item 3a asks for a count of individual registrations by adults, young adults and juveniles.

   Item 3b asks for family or household registrations **only where such registrations take the place of individual registration**. To estimate number of individuals, please multiply number of family/household registrations by 3.07 (an estimate of average number of people per family) to obtain the number of individuals and record in the right hand blank. If family/household registrations do not apply, please record a zero in the blank.

   Item 3c asks for the sum of 3a and 3b.

4. SERVICE OUTLETS. Item 4a asks for a count of the only or central library and any branches or library district members that do not report separately.
   Item 4b asks for number of bookmobiles which carry books and other library materials. Item 4c asks for other outlets or deposit collections in senior centers, hospitals, day care centers, and jails.

PART II - LIBRARY STAFF

5-7. LIBRARIANS, OTHER STAFF, TOTAL PAID STAFF. Item 5 asks for the number of paid librarians or all staff members bearing the rank, title or position of "librarian" in full-time equivalents (FTEs), WHETHER OR NOT they have a master of library science (MLS) degree from a program accredited by the American Library Association.

See the work sheet on the following page for easy-to-follow directions for calculating FULL-TIME EQUIVALENTS. Include all unfilled but budgeted positions for librarians and other staff.

Item 6 asks for all other staff in FTEs **paid from the library budget** including plant operation, security, and maintenance staff. Item 7 is the sum of 5 and 6.

8. LIBRARIANS WITH MASTERS OF LIBRARY SCIENCE FROM ALA-ACCREDITED PROGRAMS. Item 8 asks for a separate FTE count of librarians who have MLS degrees from ALA-accredited programs. These FTEs should also have been counted in item 5.

PART III - LIBRARY INCOME

9a-9c. LOCAL INCOME BY SOURCE (CITY, COUNTY, LIBRARY DISTRICT) & TYPE (GENERAL FUND, SALES TAX, MILL LEVY).

DO NOT include funds left over or unspent from the previous year. Local income includes all tax and non-tax receipts designated by the community, district, or region of the public library and available for expenditure by the public library.

Local income amounts are requested by both source and type. Please provide these figures in whole dollars amounts in items 9a - 9c.

9d. MILL LEVY RATE. If a figure is entered for item 9c under city, county, or district mill levy, enter here the mill levy RATE on which that figure is based.

9e. OTHER LOCAL GOVERNMENT INCOME. Item 9e asks for amounts and sources of any other local government income, **EXCLUDING** private foundation grants and corporate giving, library-generated income, and individual gifts and donations, all of which are reported below in items 12a-12d.

9f. TOTAL LOCAL OPERATING INCOME. Item 9f asks for one total of items 9a - 9c. and item 9e.

WORK SHEET FOR CALCULATING

FULL-TIME EQUIVALENT (FTE) STAFF

Items 5-8 ask for staffing figures in FULL-TIME EQUIVALENTS --or FTEs. For FTE figures to be comparable across libraries, they must use the same base number of hours per week to define "full-time". For that reason, a 40 hour work week is assumed in these figures--even for libraries which are not open 40 hours per week. **Even though a staff member may work all of the hours the library is open, if that number of hours is less than 40, she or he should not be counted as 1.0 FTE** for purposes of this report.

The following sample work sheet may be useful in determining the number of FTEs to report for each of items 5-8 for this library. Include unfilled, but budgeted positions.

EXAMPLE

STAFF MEMBER		HOURS PER WEEK			
1.	Jane Smith	20			
2.	John Brown	20			
3.	Nancy Jones	10			
4.	Bill White	10			
	TOTAL	60	/40	=	1.5 FTE

WORK SHEET

STAFF MEMBER		HOURS PER WEEK			
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.					
9.					
10.					
	TOTAL (1-10)	____	/40	=	____ FTE

10. STATE INCOME. Item 10 asks for the total of all income distributed to the public library from state government sources. This **includes** county equalization grants, payment-for-lending reimbursements, Colorado Endowment for the Humanities grants, etc. It **excludes** federal funds distributed by the state, such as Library Services and Construction (LSCA) Act grants, etc.

11. FEDERAL INCOME. Item 11 asks for the total of all income distributed to the public library from federal government sources. This **includes** grants from LSCA Title I and III, National Endowment for the Humanities, etc.

12. OTHER SOURCES OF INCOME. Items 12a-12d ask for sources of other income.

Item 12a asks for the total of all income raised from private foundations, corporations, businesses, non-profit organizations, and other private groups (El Pomar Foundation, Coors, etc.). It **excludes** both in-kind support from private groups and cash gifts and donations from individuals.

Item 12b asks for the total of all income **retained by the library** from its activities. Such activities include photocopying, faxing, fines, fee-based services, reciprocal borrowing, book sales, and Friends group revenue, etc.

Item 12c asks for the total of all income received as cash gifts and donations from individuals. It **excludes** both funds received from private foundations, corporations, businesses, non-profit associations, and other groups and in-kind support from groups or individuals.

Item 12d asks for the source and total of all other income not reported in items 9a-12c. Item 12e asks for a total of 12a-12d.

13. TOTAL LIBRARY INCOME. Item 13 is the total of items 9f, 10, 11 and 12e. This **excludes** in-kind support from private individuals and groups.

14. CAPITAL INCOME. Item 14 asks for a report of the total of all local, state, federal and other **funds acquired to be spent or added to fixed assets**, such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. Examples are LSCA Title II funds, gifts for the capital fund, and income from bonds.

15. IN-KIND RESOURCES. Item 15 asks for an estimate of the amount of tax dollars represented by resources provided on an in-kind basis, which the library wishes to be counted toward local maintenance of effort for **county equalization eligibility.**

PART IV - LIBRARY EXPENDITURES

16. SALARIES AND WAGES, EMPLOYEE BENEFITS, AND TOTAL STAFF EXPENDITURES. Item 16a asks for salaries and wages paid from the library's budget for **all** library staff including plant operations, security and maintenance staff. Include salaries and wages before deductions but exclude "employee benefits".

Item 16b asks for all employee benefits **outside of** salaries and wages for all employees including plant operations, security and maintenance staff **paid from the library's budget**. This **includes** Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment and/or worker's compensation, tuition, and housing benefits.

Item 16c is the total of 16a and 16b. If separate figures are not available, enter total staff expenditures for item 16c.

17. MATERIALS EXPENDITURES (BY TYPE AND TOTAL). Expenditures for materials **purchased or leased for use by the public**; include items 17a, print materials, 17b, periodical subscriptions, and 17c, computer software.

Items 17d and 17e ask for expenditures on video materials and CD-ROM machine readable disks to track the impact on library budgets of these increasingly popular formats. Item 17f is the place to report other expenditures for audio, film and microforms as well as other formats not designated in the categories above.

Item 17g asks for the total of all expenditures reported in items 17a-17f.

18. MISCELLANEOUS OPERATING EXPENDITURES. Continuing categories of miscellaneous operating expenditures include Item 18a, preservation / conservation (binding, re-binding, acid-free boxes, etc.), 18b, telephone / telecommunications, and 18c, postage. Item 18d is all other miscellaneous operating expenditures paid by the library budget such as utilities, furniture and equipment, supplies, and rent.

Item 18e is the total of all the expenditures reported in items 18a-18d.

19. TOTAL OPERATING EXPENDITURES. Item 19 is the sum of items 16c, 17g, and 18e.

20. CAPITAL OUTLAY. This item asks for the total of all **funds spent to acquire or add to fixed assets**, such as building sites, new buildings and additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This item **excludes** replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

PART V - SELECTED LIBRARY MATERIALS

21-25. SELECTED LIBRARY MATERIALS (BY TYPE). Items 21-25 ask for a count of volumes or physical units (cassettes, disks, reels, etc.) in **SELECTED categories**. Book volumes, item 21a, are non-periodical printed publications of any length bound in hard or soft covers, or in loose-leaf format.

Serial volumes, item 21b, are bound publications issued in successive parts, at regular intervals and intended to be continued. Examples are magazines, newspapers, annuals, memoirs, proceedings, and transactions of societies.

Audio materials include sound recordings on materials such as item 22a, records, item 22b, audiocassettes and item 22c, compact disks.

Other categories include item 23, films and motion pictures, item 24, video materials which play on televisions, and item 25, machine readable data such as computer software packages and CD-ROMs.

NOTE: Items dropped due to lack of use include uncataloged materials, government publications in separate collections, microforms, and "other" materials as well as the total of volumes or physical units across type.

26. CURRENT PERIODICAL AND NEWSPAPER SUBSCRIPTIONS. Item 26 asks for the number of subscription titles received by the library, NOT the number of individual issues. **DUPLICATE TITLES** or multiple subscriptions to a magazine for a library and its branches, **should be counted.**

PART VI -- SERVICE PER TYPICAL WEEK

27-29. PER TYPICAL WEEK. Items 27-29 ask for counts for a "typical week" in which the library is open regular, routine hours without holidays and is neither unusually busy nor slow. This week is seven consecutive calendar days, Sunday-Saturday, or whatever days the library is open during that period. This week might fall between September and April. However, each library will have to identify a "typical week" based on its own patterns of use.

An alternative for "typical week" is to count the number of times a service is provided for a typical week worth of days. For example, if a library is open 5 days per typical week, counts might be made on five randomly selected dates from throughout the year. These dates should meet the "typical week" criteria of regular hours without holidays, and may be selected using a table of random numbers or by picking numbers for a month (1-12) and a date (1-31) "from a hat" until five valid dates have been selected.

27a. **UNDUPLICATED** Public Service Hours Per Typical Week. Count both main library and branch hours using the following method. If a library is open from 9:00 a.m.-5:00 p.m. Monday-Friday, it should report 40 hours per week. If its branches are open during the same hours, the figure remains 40 hours. Should Branch A also be open one evening from 5:00 p.m.-7:00 p.m., the total hours for public service becomes 42. If Branch B is open the same hours on the same evening, the total remains 42. If B is open 2 hours on a different evening, the total becomes 44. Include bookmobiles, if applicable.

27b. **DUPLICATED** Public Service Hours Per Typical Week. Count both main library and branch hours as follows. If a main library is open 60 hours per week, report 60 hours. If it also has three branch libraries open the same total number of hours as the main library (regardless of **when** these branches are open), then report 240 hours (4 outlets x 60 hours each). Include bookmobiles, if applicable.

27c. Item 27c asks for the total number of days the library was closed to the public excluding routine days closed in their typical schedule. Such unusual closures might include bad weather, taking inventory or holidays.

28. LIBRARY VISITS Per Typical Week. Report the total number of persons entering the library for any reason during a "typical week". This includes people attending meetings, photocopying, using the restroom, and those requiring no staff services.

29. IN-LIBRARY USE Per Typical Week. Report the total number of materials used in the library, but not checked out. One method for counting is to post signs asking users not to re-shelve materials used in the library and to count items before re-shelving them.

30. LIBRARY HOURS. Items 30a-30e ask for times (a.m. to p.m.) when the main library is open each day of a typical week. **If Summer hours are different from Winter hours, please list separately and indicate how many weeks each schedule is in effect.**

PART VII - ANNUAL SERVICE

31. REFERENCE QUESTIONS (ANNUAL or Typical Week Count x 52). Report the number of information contacts with library users which involve the knowledge, use, recommendation, interpretation, or instruction in the use of one or more **information sources** by library staff. Information sources include any type of library materials, online databases, union catalogs or lists, or other persons within or beyond the library (including communication without referrals to other libraries). Please count all reference questions asked by all users, regardless of age.

NOTE: **Please do not include** directional questions. Such contacts help library users, but do not use information sources other than to describe the library (schedules, floor plans, handbooks, policy statements, and location of restrooms).

32. ADULT, JUVENILE, AND TOTAL CIRCULATION. Report **ANNUAL** circulation of adult and juvenile materials separately, if possible. Juvenile materials are purchased for use by pre-school through 6th grade children. Each renewal is also reported as a circulation transaction. Circulation can be counted "per typical week" and multiplied by 52, if needed. If separate circulation records are not kept, please estimate. If estimates cannot be made, report total circulation for item 32c.

33-34. GROUP PROGRAMS/PRESENTATIONS AND ATTENDANCE (CHILDREN AND ADULTS). Group programs or presentations may be either library instruction or cultural, recreational, or educational events in which a staff member (or person invited by a staff member) provides information or entertainment intended for a number of persons and planned in advance. Include events sponsored by the library both on and off library premises. Such service **does not include** meetings sponsored by other groups using library meeting space.

If possible, report separate numbers of programs/presentations specifically designed for Children in item 33a and for Adults in item 33b. Report separate figures for those attending Children's programs/presentations in item 34a and for Adults' programs/presentations in item 34b. If separate records are not kept, please estimate. If estimates cannot be made, report total programs/ presentations for item 33c and total attendance for item 34c.

35. INTERLIBRARY LOANS. For item 35a, report number of materials or copies of materials **loaned to** other libraries upon request. For item 35b, report the number of materials or copies of materials **borrowed from** other libraries upon request. These figures **DO NOT COUNT** rotating collections or materials loaned between library branches under one administration.

PART VIII - STAFF SALARIES AND WAGES

36-40. DIRECTOR, ASSISTANT DIRECTOR, DEPARTMENT HEAD, SPECIALISTS, STARTING LIBRARIAN. For each of these five positions, use the "Low" and "High" columns to report the **annual** salary range. If the library has a salary schedule, use that range; use actual salaries only if the library does not have a salary schedule. If reporting an actual salary for a single employee (e.g., director), please enter the same salary figure in both the low and high columns. For each salary figure entered, be sure to indicate the number of hours **paid** per week. Be sure to circle YES or NO as to whether or not the position requires the Master of Library Science degree.

NOTE: For full-time professionals not considered to be paid on an hourly basis, enter 40 under "hours per week". Also distinctions are made between "Department heads" who supervise others in their area and "Specialists" whose work is specific by subject (science, business, music) or client (children, adults, homebound) and who do not necessarily supervise others.

41-42. LIBRARY ASSISTANT AND LIBRARY CLERK. For these two positions, report only **the hourly wage range.** As with annual salaries, report figures from a wage scale, if available, or actual wages, if there is no scale for the library. Also, as with salaries,enter the same figure in both the low and high columns, if reporting a single wage rate.

PART IX - AUTOMATION ISSUES

43. Please indicate if your library has a fax machine by circling YES or NO.

44. Please indicate if your library has **either** a computer with an internal modem **or** a computer and an external modem by circling YES or NO.

PART X - CHALLENGED MATERIALS

45. Item 45 asks for a report or estimate of the number of titles or items of library materials which may have been challenged during 1991.

NOTE: Please count any attempt--successful or unsuccessful--by any individual or group to have any title (regardless of format) removed from the library or to have access to the material restricted. Such a challenge might be because of the origin, background, or views of those contributing to a title's creation or because of partisan or doctrinal disapproval. A challenge should be counted if a public oral or written complaint is lodged (e.g.; library administration or board, letter to newspaper editor). If a challenge to an exhibit is made, count separately those specific materials in the exhibit to which the complainant objects.

PART XI - SPECIAL REPORT USE

46. Items 46a-46c ask about your library's use of its 1990 Special Report and Guidelines Statistics.

Please return the report by February, 1992. Have your library director sign the completed report. Please send a copy of your report to your system director. If you have any questions or comments, don't hesitate to contact us, Keith Lance or Julie Boucher at:

COLORADO PUBLIC LIBRARIES ANNUAL REPORT 1991

Incorporating Items for the Federal/State Cooperative System for Public Library Data

RESPONDENT IDENTIFICATION

Library		
Street/Mailing Address		
City	County	Zip Code
Phone: ( )	Fax: ( )	
Person Completing Report		

PART I - GENERAL INFORMATION

(See Instructions, p. 1)

Item	*Line No.*	
Specify the legal service area of this library:	1	
Has the library updated its registered borrower file at least once during the past three years? (Circle Yes or No)	2	*Yes No*
Registered borrowers:		*Number*
Individual	3a	
Family/Household registration, if used, (please record family/household registrations in blank and multiply by 3.07 for an average number) _____ x 3.07 =	3b	
TOTAL REGISTRATION (Sum of 3a and 3b)	**3c**	
Service outlets: How many service outlets does this library administer? (Include the only or central library as well as any branches or library district members that do not report separately)	4a	
Bookmobiles (number of vehicles, not stops)	4b	
Other service outlets (deposit collections in senior centers, hospitals, jails, etc.)	4c	

PART II - PAID LIBRARY STAFF

(See Instructions, p. 2 and Work Sheet, p. 3)

Item (Include unfilled but budgeted positions)	*Line No.*	*Number of FTE (Full-Time Equivalent)*
All librarians	5	
All other staff (include plant operations, security and maintenance staff paid from library budget)	6	
TOTAL PAID LIBRARY STAFF (Sum of 5 and 6)	**7**	
Librarians with MLS degrees from ALA-accredited programs (included in 5)	8	

PART III - LIBRARY OPERATING INCOME

(Use Whole Dollars Only and See Instructions, pp. 2 and 4)

Item (*Do* **NOT** *include funds unspent from previous year*)	*Line No.*	*WHOLE DOLLARS ONLY*		
		City	*County*	*District*
Local income: General fund	9a	.00	.00	.00
Sales tax	9b	.00	.00	.00
Mill levy	9c	.00	.00	.00
Mill levy rate (if applicable) =	9d			
Other **local government income,** (excluding sources listed in 12a-12d below), **specify source:**	9e			.00
TOTAL LOCAL INCOME (Sum of 9a - 9c and 9e)	**9f**			**.00**
Total state income (county equalization, payment for lending, Colorado Endowment for the Humanities, etc.)	10			.00
Total federal income (Library Services and Construction Act [LSCA Title I, III], National Endowment for the Humanities, etc.)	11			.00
Other sources of income: Private foundation grants and corporate giving (El Pomar Foundation, Coors, etc.)	12a	.00		
Library-generated income **if retained by library**: (photocopying, fines, faxes, fee-based services, reciprocal borrowing, book sales and Friends Group revenue, etc.)	12b	.00		
Individual cash gifts and donations	12c	.00		
Other income, specify source:	12d	.00		
TOTAL OTHER SOURCES OF INCOME (Sum of 12a - 12d)	**12e**			**.00**
TOTAL LIBRARY INCOME (Sum of 9f, 10, 11 and 12e)	**13**			**.00**
Capital income (funds acquired to be spent or added to fixed assets such as LSCA Title II, gifts for capital fund, income from bonds)	14			.00
Estimated value of in-kind resources (only if counted for county equalization eligibility)	15			.00

PART IV - LIBRARY EXPENDITURES

(Use Whole Dollars Only and See Instructions, p. 5)

Item	*Line No.*	*AMOUNT (Whole Dollars Only)*	
Staff expenditures: Salaries and wages of all staff including plant operation, security and maintenance staff **paid from the library budget.**	16a	.00	
Employee benefits: Include Social Security, retirement, employee insurance & compensation plans, and include plant operation, security and maintenance staff benefits **paid from library budget.)**	16b	.00	
TOTAL STAFF EXPENDITURES (Sum of 16a and 16b)	**16c**		**.00**
Materials expenditures **for public use**: Print materials (excluding periodical subscriptions, microforms)	17a	.00	
Serial subscriptions (all formats)	17b	.00	
Computer software	17c	.00	
Videocassettes, videodiscs	17d	.00	
CD-ROM (machine readable disks)	17e	.00	
Other materials (audio, film, microforms, etc.)	17f	.00	
TOTAL MATERIALS EXPENDITURES (Sum of 17a - 17f)	**17g**		**.00**
Miscellaneous operating expenditures: Preservation/ conservation (binding, re-binding, acid-free boxes, etc.)	18a	.00	
Telephone/ telecommunications costs	18b	.00	
Postage	18c	.00	
Other costs (utilities, furniture & equipment, supplies, rent, etc.)	18d	.00	
TOTAL MISCELLANEOUS OPERATING EXPENDITURES (Sum of 18a - 18d)	**18e**		**.00**
TOTAL OPERATING EXPENDITURES (Sum of 16c, 17g, and 18e)	**19**		**.00**
Capital outlay (funds spent to acquire or add to fixed assets such as new buildings and additions, new equipment, computerization, etc.)	20		.00

PART V - SELECTED LIBRARY MATERIALS

(See Instructions, p. 6)

Item (Collections for public use)	*Line No.*	*Volumes or Physical Units Held at End of 1991*
Book volumes	21a	
Serial volumes	21b	
Audio materials: Records	22a	
Audiocassettes	22b	
Compact discs	22c	
Films/Motion Pictures	23	
Video materials	24	
Machine readable data: Computer software packages	25a	
CD-ROM (machine readable data)	25b	
Current periodical and newspaper titles (including duplicate titles)	26	

PART VI - SERVICE PER TYPICAL WEEK

(See Instructions, pp. 6-7)

Item	*Line No.*	*Number*
Public service hours per typical week: **Unduplicated hours** (if reporting for a library with branches or all libraries in a library district, **do not count** overlapping hours)	27a	
Duplicated (if reporting for a library with branches or all libraries in a library district, **do count** overlapping hours)	27b	
How many days was the library closed to the public during 1990? (**exclude** routine days closed and **include** holidays, inventory and emergencies such as bad weather).	27c	
Library visits per "typical week"	28	
In-library use per "typical week"	29	

Hours main library open: If Summer and Winter schedules are different, list separately with number of weeks each schedule is in effect.	*Line No.*	*Winter Hours (example: 9a.m.-1 p.m.)*	*Summer Hours*
Sunday	30a		
Monday	30b		
Tuesday	30c		
Wednesday	30d		
Thursday	30e		
Friday	30f		

PART VII - ANNUAL SERVICE

(See Instructions, pp. 7-8)

Item	*Line No.*	*Number*
Reference questions handled annually or a "typical week" estimate times 52 (sources of information used, not a directional question.)	31	
Circulation: Adult	32a	
Juvenile	32b	
TOTAL CIRCULATION (Sum of 31a and 31b)	**32c**	
Group programs/presentations: Children's programs/presentations (story hour, summer reading, etc.)	33a	
Adult programs/presentations (include young adults, "Let's Talk About It", literacy)	33b	
TOTAL GROUP PROGRAMS/PRESENTATIONS (Sum of 33a and 33b)	**33c**	
Group program/presentation attendance: Attendance at Children's programs/presentations	34a	
Attendance at Adult programs/presentations (include young adults, if applicable)	34b	
TOTAL GROUP ATTENDANCE (Sum of 34a and 34b)	**34c**	
Interlibrary loans: Loaned to other libraries (under different administrations)	35a	
Borrowed from other libraries (under different administrations)	35b	

PART VIII - STAFF SALARIES AND WAGES

(See Instructions, pp. 8-9)

Position	*Line No.*	*(a) Low Annual Salary*	*(b) Hours Paid/ Week**	*(c) High Annual Salary*	*(d) Hours Paid/ Week**	*(e) Requires MLS Degree? (Circle One)*
Director	36	.00		.00		YES NO
Assistant Director	37	.00		.00		YES NO
Department Head**	38	.00		.00		YES NO
Specialists***	39	.00		.00		YES NO
Starting Librarian	40	.00		.00		YES NO

* For full-time professionals not considered to paid on an hourly basis, enter 40.
** This category assumes supervisory responsibility.
*** This category includes specialists by subject (e.g., science, business, music), function (reference, interlibrary loan, cataloging, circulation), or client (e.g., children, adults, homebound).

Position	*Line No.*	*(a) Low Hourly Wage*	*(b) High Hourly Wage*
Library Assistant	41	.	.
Library Clerk	42	.	.

PART IX - AUTOMATION ISSUES

(See Instructions, p. 9)

Item	*Line No.*	*Circle One*
Does your library have a FAX machine?	43	YES NO
Does your library have either a computer with an internal modem or a computer and a separate modem?	44	YES NO

PART X - CHALLENGED MATERIALS

(See Instructions, p. 9)

Item	*Line No.*	*Number*
Please report or estimate the number of titles of challenged library materials during 1991. See the American Library Association's definition of "challenged materials" on page 9 of the instructions.	45	

PART XI - SPECIAL REPORT USE

(See Instructions, p. 9)

Item	*Line No.*	*Answer*
Has your library received a copy of its 1990 Special Report which includes the Guidelines Statistics update? (Circle Yes or No)	*46a*	*Yes No*
Have you used or do you plan to use this information? (Circle Yes or No)	*46b*	*Yes No*
If being used to justify a budget proposal, how much additional funding was or is being requested? (whole dollars only)	*46c*	$ .00
